

System Map

How To Use This Map

Each route of the Sydney Metropolitan Rail System is identified by its own number or letter and a colour.
The number or letter is shown at the beginning and end of each line and at intervals along the routes on the map, for example:

Stations on each route are shown by a ● in the colour line of that route. Since certain trains may stop at some stations during special hours only, consult the route guides at right for details,

for example:

7 Olympic Park Shuttle. All times.

In Sydney, the City Circle is the railway loop through the CBD that connects the Inner West line to the Airport line. 2, 3, and 8 trains through-run via the City Circle, changing designations as they enter Central towards the City.
